

PH, PA-Series, Hydraulic Hand Pump

PH, PA-系列，手動鋁制泵浦

PH-Series, internal pressure relief valve for overload protection

Two-speed operation on most models reduces handle strokes by as much as 78% over single speed pumps

Handle lock and lightweight construction for easy carrying

Integral 4-way valve on PH-464 for operation of double-acting cylinders

PH-392 Durable glass-filled nylon reservoir and nylon encapsulated aluminum pump base for maximum corrosion resistance

PH-Series with large oil capacities to power a wide range of cylinders or tools
